### Kursinformationen

#### Zielgruppe

This online seminar is for anyone dealing with lithium cells and batteries in their job and who need to ship them.

#### Voraussetzung

For this online seminar there are no requirements.

#### Prüfung

This online seminar is without an exam.

Attention: For shipping lithium cells and batteries according to Section I, IA and IB of the respective packing instruction in air transport anyone needs a certificate recognized by the appropriate national authority for packer (B\*\*/B\*\*\*) respective shipper (A\*\*/A\*\*\*) which can only be obtained through a special course including a final exam.

In diesem Online Seminar findet keine Prüfung statt.

Hier geht´s zum passenden Kurs:

(A\*\*/A\*\*\*) ehemals PK1-Kl.9 Kurs

Personen, die Lithiumbatterien für den Lufttransport verpacken, benötigen ebenfalls ein amtlich anerkanntes Zertifikat für Verpacker (B\*\*/B\*\*\*).

Hier geht´s zum passenden Kurs:

(B\*\*/B\*\*\*) ehemals PK2-Kl.9 Kurs

## Abschluss

You will receive a certificate of attendance as proof of a training according to 1.3 ADR, 1.3 IMDG Code and of adequate instructions according to 1.6 IATA DGR.

Attention: To receive this proof it is necessary that your camera is switched on during the whole online seminar.

## Methode

Our goal is that our participants will know how to help themselves in everyday working life. In order to achieve this in the online seminar practice-oriented issues will be worked with. This means that you as a participant will be actively integrated in the online seminar: What you´ve done yourself, will more easily be remembered. Our trainer take care that it won´t be boring and that you will learn about the topics through different methods.

## Inhalt

- definitions (cell, component cell, single cell battery, battery, hybrid battery, assembled battery)
- difference lithium ion, lithium metal
- Technical Requirements
- QM Program
- UN Test Series 38.3
- All further information you need to request before a lithium cell or lithium battery can be shipped

## Weitere wichtige Informationen

This online seminar will take place in our Virtual Classroom via Zoom. If you have not worked with Zoom before, please let us know and we will arrange a date for a technical check beforehand
